

Wheelersburg Local Schools

Use Of Pesticides

Pre-Notification Request

The Board of Education is committed to providing students with a safe learning environment free of pests, pesticides and other harmful chemicals.

Parents, students and staff at Wheelersburg Local Schools may request to receive prior notification of scheduled service visits by pesticide businesses in which pesticides may be applied, or of scheduled pesticide applications by licensed schools employees.

It is the Wheelersburg Local Schools procedure that persons requesting pre-notification of pesticide applications will receive an email and/or an automated telephone notice at least 48 hours before the action; unless an emergency action is needed. Each request is valid until June 30 of each year and must be renewed annually.
